Morning Oregonian.

VOL. XXI. NO. 6348 PORTLAND, OREGON: MONDAY, AUGUST 22, 1881. PRICE—TEN CENTS.

RAILROADS

& California R.R.

[illegible] trains will run as follows, DAILY, EXCEPT SUNDAYS:

Eastside Division.

PORTLAND TO ROSEBURG

Mail Train

[illegible] A.M. | Roseburg [illegible] ARRIVE
[illegible] P.M. | Portland [illegible]

Albany Express Train

[illegible] P.M. | Lebanon [illegible] ARRIVE
[illegible] A.M. | Portland [illegible]

Freight Trains

[illegible] A.M. | Junction [illegible] ARRIVE
[illegible]

Westside Division.

PORTLAND TO CORVALLIS

Mail Train

[illegible] A.M. | Corvallis [illegible] ARRIVE
[illegible] A.M. | Portland [illegible]

[illegible] made at Roseburg with stages [illegible] and Oregon Stage Company [illegible] at Company's office [illegible] and Front Sts., Portland, Or.

[illegible] be charged on freight [illegible] house over twenty-four hours [illegible] be received for shipment [illegible] Eastside Division, and [illegible] J. BRANDT [illegible], Gen'l Freight and Passenger Agt.

[illegible] Pacific Railroad

PACIFIC DIVISION.

KALAMA TO TACOMA AND TACOMA TO WILKESON (Coal Mines).

Mail Line Trains Daily (SUNDAYS EXCEPTED).

[illegible] 7:00 A.M. | Kalama [illegible] ARRIVE
[illegible] A.M. | Tacoma [illegible]

Puyallup Road Trains.

[illegible] 1:45 P.M. | Carbonado [illegible] ARRIVE
[illegible] A.M. | Tacoma [illegible]

Connections.

[illegible] with Pacific Mail Steamships [illegible] with Sound steamers for Victoria and all points on Puget Sound, [illegible] with stages for Steilacoom, [illegible] the Olympia and Tenino Railroad.

[illegible] with O. R. & N. Co.'s boats for [illegible] and steamships [illegible] connecting at [illegible]

On Wednesday and Saturday at [illegible] for Port Townsend, Victoria, Nanaimo, [illegible] and Fraser River.

PEND D'OREILLE DIVISION

Junction to Spokane Falls

(SUNDAYS EXCEPTED).

[illegible] A.M. | Spokan Falls [illegible] ARRIVE
[illegible] A.M. | Wallula Junction [illegible]

Connections.

[illegible] connection with the O. R. & N. Co.'s [illegible] with the O. R. & N. Co.'s steamers and all intermediate points [illegible]

[illegible] with stages for Medical Lake, [illegible] with stages for Colfax, [illegible] Medical Lake, Spangle, [illegible] Pend d'Oreille, and all points in [illegible]

Through Tickets.

[illegible] for sale at the principal offices [illegible] and at the office of the O. R. & N. [illegible] to Victoria and Seattle [illegible] steamships from Tacoma and [illegible] S. S. Co.'s steamships from [illegible] to Portland, Oregon, for sale at [illegible] and Tenino.

[illegible] OTIS SPRAGUE, Sup't Pac. Div. [illegible] Sup't
H. W. FAIRWEATHER, Sup't Pend d'Oreille Div. [illegible]

[illegible] Railway Company

LIMITED.

NEW ROUTE.

[illegible] MONDAY, JULY 18, 1881, [illegible] notice, Trains and Steamers [illegible]

EAST SIDE DIVISION. PASSENGER TRAINS

[illegible] East Portland via O. & C. R.R. [illegible] TUESDAYS, THURSDAYS [illegible] connecting at Woodburn [illegible] Woodburn and Brownsville, arriving [illegible] P.M.

[illegible] Brownsville MONDAYS, WEDNESDAYS and FRIDAYS at 10 A.M., connecting [illegible] O. & C. R.R., arriving at East Portland [illegible]

MIXED.

Steamer leaves foot of Morrison [illegible] DAYS, WEDNESDAYS and FRIDAYS [illegible] points, connecting with trains [illegible] all points on East Side Division [illegible] Brownsville 11:35 P.M. [illegible] Brownsville at 5 A.M. on TUESDAYS and SATURDAYS, connecting [illegible] Landing, and arriving [illegible]

WEST SIDE DIVISION.

[illegible] daily, Sundays excepted, via O. & C. [illegible] West Side Division foot of [illegible] and Sheridan Junction [illegible] at West Side Crossing [illegible] and Sheridan Junction [illegible] Sheridan Junction [illegible] WED [illegible] FRIDAY [illegible] Sheridan Junction, [illegible] THURSDAYS and SATURDAYS [illegible] Sheridan Junction and [illegible]

FREIGHT

[illegible] 7 A.M. to 5 P.M. at wharf foot of Morrison street.

TICKETS to above and intermediate [illegible] East and West Side Divisions [illegible] Ticket Office, foot of F street.

J. M. FILLMORE, General Superintendent [illegible] and Ticket Agent.

NOTICE.

[illegible] RAILWAY CO. (Limited), Portland, Aug. 15, 1881. [illegible] requiring sacks for storing grain [illegible] houses of the Oregonian [illegible] may obtain the same after [illegible] to any of said company's [illegible] office. J. M. FILLMORE, General Superintendent.

NOTICE TO SHIPPERS.

STILL CRITICAL.

Vomiting Sunday Afternoon Increases the General Fear.

CAUSED BY COLLECTION OF PHLEGM IN THE PRESIDENT'S THROAT.

The Doctors Hopeful, but a Gloomy Feeling Outside.

SPECIAL DISPATCH TO THE OREGONIAN.

EXECUTIVE MANSION, Aug. 21, [illegible] A. M.—The president has passed a quiet night. This morning his condition does not differ materially from what it was yesterday at the same hour. The swelling of the parotid gland is unchanged and is free from pain this morning. His pulse is 98, temperature 98.4, respiration 18.

A Favorable Report.

WASHINGTON, Aug. 20.—In response to inquiry Dr. Boynton said at 11:15 A. M. that the the president continues to improve slowly and everything is favorable. It is worthy of notice that the condition of the patient this morning as shown by the 8:30 bulletin was better as far as pulse, temperature and respiration are concerned than at any corresponding hour during the past 11 days. On the 9th of August the patient's pulse at the morning examination was 99, temperature 99, respiration 19. Since that time his pulse has never been below 100 morning or evening until to-day when it was again 98 with temperature and respiration correspondingly improved. It is hoped that this fall of pulse below 100 indicates a gradual return to the favorable conditions which existed about week before last's operation.

1:15 P. M.

The president has taken nourishment through the mouth several times to-day and in considerable quantities. In all he has swallowed ten ounces of koumiss and four ounces of milk gruel without gastric disturbance. It has not been thought prudent up to the present time to give him any other kind of liquid food, but the juice of beefsteak is being prepared and will be tried soon. If it be retained and assimilated beef juice will henceforth be given every day. An enema was administered to the patient this forenoon consisting of three and a half ounces of beef extract with the yolk of an egg.

An Unfavorable View.

Accidental discovery of obstructions in the track of the ball near the mouth of the wound is regarded by unofficial physicians as evidence of great neglect. Official surgeons have frequently announced that the wound was healing nicely to within three or four inches of the mouth. The wound, it now appears, eight inches beyond has been suppurating all this time and the light flow of pus was due to the obstruction just discovered and the fact that a considerable amount was absorbed. This accounts for inflammation on the neck and satisfies at least unofficial experts, that the president is and has been suffering from blood poisoning for weeks. That 8 inches of suppurating surface has not been cleansed at all and the result will probably be serious complications yet to arise. Official surgeons, however, profess to think that the president is doing well and take a more conservative view of the case than many of their professional brothers. Inflammation of the parotid gland has not diminished much since yesterday. The swelling of the surrounding parts had subsided so that the expression of the face is again natural, but the gland itself is still troublesome. A scattering application of collodion and iodoform has been made to it, but it is impossible to say yet whether suppuration can be prevented. In the meantime the patient suffers to some extent from stiffness of the jaw and from accumulation of phlegm in the throat. Upon being asked whether there were any indications yet in the president's case of malaria, Dr. Bliss replied in the negative. Quinine had been given, he said, in five grain doses at intervals, but rather for its general tonic effect than because of any particular symptoms to call for it. The president's fever in his opinion is not of an intermittent type, and not influenced by malaria. The whole question of the future of the president's case turns now upon the stomach. If that organ can receive and assimilate food enough to support the present drain upon the system, and enable the patient to regain his strength, he will stand a fair chance of recovery. If on the contrary the stomach becomes intolerant of nourishment, and refuses for any great length of time to receive food, the consequences may be fatal. At present all indications are that the stomach is recovering its tone, and upon this fact we base our hopeful anticipations.

The Wound Probed Twelve Inches.

Dr. Boynton, who came out of the president's room at 3:30 this afternoon said to a reporter: There is no truth in a report that the object of introducing a tube into the wound to such a depth was for the purpose of reaching supposed pus accumulations. While washing out the wound yesterday the surgeons found that there was no longer any resistance to the pressure of the tube, and they therefore let it go in as far as it would and to a depth of 11 inches, and afterwards 13 inches. Healthy pus is never absorbed and cannot be absorbed, consequently there can be no foundation to the theory that the depth of the wound would indicate that pus had been absorbed. Introduction of the tube to so great a depth gives no further evidence of the location of the ball. The tube was a flexible rubber catheter used in washing out the wound, and we could tell in a general way the direction it took through the body. That direction was forward and downward, towards a point in the anterior wall of the abdomen where the ball has always been supposed to be. Nothing new was ascertained. Surgeons think it possible that the ball has moved downward, since the president was first wounded, in the abdomen, well, but this is not certain. Surgeons regard this opening up of the wound as favorable. It is better to have the wound open throughout than closed or obstructed in the middle. It can now be gotten at and cleansed thoroughly. In fact, this exploration shows no unfavorable symptoms, but to the contrary. The president swallowed about three teaspoonfuls of beefsteak juice to-day, and has also taken more milk gruel this afternoon. The swelling of the parotid gland is only half the size, and is slowly diminishing.

The President's Condition Saturday Morning.

EXECUTIVE MANSION, Aug. 20.—Just before the morning dressing occurred, Dr. Bliss came into Private Secretary Brown's room. He said in reply to inquiries regarding the president that he has passed a very comfortable night. He slept from half an hour to an hour at a time. The last twelve hours has shown considerable improvement. During an awakening hour at about 1 o'clock, an enema was administered, and at about 2 o'clock the patient took several ounces of milk gruel. After that he rested quietly until the doctors arose. Dr. Bliss saw the president for the first time during the night after day light. The conversation with the surgeon was as follows:

Q.—How is the patient, doctor? A.—He has had a good night.

Q.—Then I suppose he is better? A.—Oh, yes, he shows improvement since yesterday. I saw him only a few moments ago. He was lying there as quietly as could be, I took his pulse and it was about 96.

Q.—How was his respiration, doctor? A.—It could not have been more than 18. He was breathing so easily and his skin was cool and moist. His pulse was soft and clear.

Q.—The pulse will become more frequent after the morning dressing, I suppose? A.—Yes, possibly 3 or 4 beats.

Q.—How is the parotid gland? does it bother him much?

Dr. Bliss: Did you ever have the mumps?

Brown—Yes, sir.

Dr. Bliss—Then you know something about how it troubles him. He cannot open his mouth wide at all times. He told me this morning that his mouth would not open but half an inch.

Q.—Is it still swollen? A.—The swelling is not so much now, but the soreness affects the muscles of the jaw.

Q.—Does not it cause a collection of phlegm in his throat, then. A.—Oh, yes, but he clears his throat so loudly that he can be heard in the next room. He told me just now that he thought if he should vomit it would clear the phlegm away. I told him that it was not necessary. On one occasion during the early morning, one who happened to be in the hallway outside door near the president's bed, distinctly heard the patient ask Col. Swaim for his handkerchief. When it was given him he cleared his throat and wiped his lips and repeated the operation several times.

During further conversation with Dr. Bliss he spoke in regard to a mistake which occurred in a telephone interview with him late last night regarding the use of instruments in connection with the wound. He appears to have been understood to say that the flexible tube used for cleansing the wound had not been put into the wound further than 3½ inches. "What I intended to say," continued the Doctor, "was that no probe had penetrated the wound beyond that depth." How far the flexible cleaning tube had been inserted he could not say, but he would ascertain exactly, and probably mention the fact in one of to-day's bulletins.

Dr. Reyburn came into the room just as Dr. Bliss concluded, and said that the indications this morning were better than they had been for a week.

Dr. W. H. Hawks came to the mansion about ten minutes ago, and desiring to obtain the exact condition of the president, conferred with Dr. Boynton, who said: "The patient is still better this morning and everything is favorable." The feeling of reassurance is rapidly increasing.

8:30 P. M.

The president has passed the day quietly. He has been able to take more liquid food by the mouth than yesterday and the quantity by enemata has been proportionately diminished. The parotid swelling remains about the same; pulse 110, temperature 99.4, respiration 18.

Eleven o'clock Statement.

11 P. M.—In reviewing the president's case to-day the most that can fairly be said is that there has been a very slight change for the better. The president's pulse and temperature are a little higher than last night, but this trifling increase of fever, which is attributed to inflammation of the parotid gland, is counterbalanced by improvement in the tone of the stomach upon which so much now depends. The president has taken to-day about [illegible] ounces of milk gruel with flour, about [illegible] of koumiss, and a small quantity of beef juice. He has had also enemata of fifteen ounces of beef extract mixed with yolk of egg. There has been no recurrence of nausea or other symptom of gastric disturbance. The swelling of the parotid gland remains the same as this morning, and the result of the measures which have been taken to prevent suppuration cannot be anticipated. It would be gratifying to the surgeons if the swelling would subside, but if suppuration ensues, the abscess will have to be opened.

The president went to sleep soon after the evening examination and slept for a half hour or so. When he awoke another enemata was administered, after which at 10:30 he again fell asleep. His fever has subsided within the past two hours, and at the present time his pulse and temperature are lower than at the evening examination. Surgeons sum up the day by saying that there has been a slight change for the better in the direction of greater ability to receive and assimilate nourishment, and the outlook to-night is favorable. The president, however, is extremely weak, and improvement will be very slow.

[illegible] P. M. [illegible] the president [illegible] at [illegible]

12:30 Bulletin.

[illegible] Nutritive enemata [illegible] at longer intervals. His pulse [illegible] temperature 98.4, respiration 18. At the [illegible] dressing the wound was doing well and the [illegible] healthy [illegible] August [illegible] was [illegible] off [illegible] the track of the ball, [illegible] was obtained [illegible] track of the ball [illegible] at this point, which came either spontaneously or after gentle pressure over the anterior surface of the right iliac region, but this deeper part of the track was not reached until yesterday morning, when suppuration of a small slough permitted the tube to pass unimpeded downward and forward for a distance of 12½ inches from the external surface. This has not been followed by any increase in the pus discharge. The large pus cavity which had formed in the immediate vicinity of the broken rib is filling up with healthy granulations, and the original wound of the entrance as far as that cavity has healed.

6:30 P. M.

The president has vomited twice during the afternoon. The administration of food by the mouth has therefore again been temporarily suspended and nutritious enemata will be given more frequently. His temperature is lower and his pulse rather less frequent than yesterday afternoon. The parotid swelling is painless, but stationary. Pulse 108; temperature 99.3; respiration 18.

A Dangerous Day Passed.

WASHINGTON, Aug. 20.—Saturday, in every stage of the president's illness, seems to have always been a day of anxiety, and sometimes a critical day. To-day, however, seems to have been an exception to the rule. The morning bulletin was a most gratifying one, and seemed to greatly restore confidence. The president's pulse had gone down two beats since yesterday, but in other respects the figures were the same as yesterday. The morning bulletin though was assuring inasmuch as it indicated no unfavorable symptoms.

WASHINGTON, Aug. 21, 7:30 A. M.—Information received from the sick room this morning in substance is that the president slept considerably during the night but with more frequent intervals of wakefulness during the fore part of the night than on the previous night. His pulse early this morning was reported by physicians to be about 100. His temperature was apparently about normal.

8:30 A. M.—The president awoke more than usual, but slept sufficiently during the night and appears to be comfortable this morning. The parotid swelling is about the same but is not painful. He took liquid nourishment by the mouth several times during the night as well as this morning. Pulse 106, temperature 98.8, respiration 18.—Bliss and others.

The Swollen Gland.

NEW YORK, Aug. 21.—The *Post's* Washington special speaks apprehensively of the swollen gland in the president's case says that the situation, in short, this morning is one of hope and uncertainty. The swollen gland has not yielded to treatment. If it shall suppurate surgeons apprehend some results, the nature of which they do not disclose. The stomach is regaining its tone, but whether it is to perform permanently the functions of a stomach and to restore his system cannot be determined until solid food has been taken and retained, and there is no present purpose of making an experiment with solid food.

The President's Condition Reviewed by the Physicians.

7:30 P. M.—Bliss has just left for home. He says that the united opinion of the attending surgeons is that vomiting which occurred this afternoon was caused by irritation in phlegm in the president's throat as a result of the inflamed gland. The day at the White House has been extremely quiet, and until early in the afternoon nothing could be ascertained regarding the president excepting what information the official bulletins contain. Callers were unusually few, among those most prominent being ex-Minister Noyes, Judge Wylie and First Auditor Reynolds, the latter being a constant visitor. At about 1 o'clock Dr. Bliss came into Private Secretary Brown's room looking very tired and apparently worn out. When asked the cause of his weariness he replied that he had not had much rest during the night, as the president was quite wakeful. The following dialogue between the doctor and a reporter ensued.

What was the cause of the president's being so restless during the night? A.—It was caused principally by annoyance from glandular inflammation.

In what particular manner was he annoyed? A.—principally by secretions of phlegm in his throat which awakened him about every half hour.

I suppose you are still endeavoring to scatter the swelling of the gland? A.—Yes; we are trying to prevent suppuration, and to accomplish that the inflammation must be scattered.

What is the probability of succeeding? A.—Well, I can't say positively, but appearances do not indicate that it is any worse.

Has there been any gastric disturbance of the stomach yet. A.—None at all. The stomach appears to be improving all the time.

Have you decreased enemata still more? A.—We now administer an enema twice during the day and twice during the night, in the morning, afternoon, evening and at dawn.

About how much do you administer a day? A.—Twenty ounces of beef extract with the yolks of four eggs.

Do you contemplate trying the patient with solid food soon? A.—We have not discussed that subject yet. He is getting sufficient nourishment now.

How do you account for the rise in his pulse which was noted in the morning bulletin? A.—I do not know exactly what caused it. If the patient is turned over in bed his pulse increases two to ten beats for a short time, but soon goes down. Perhaps his broken sleep last night caused the rise. I see no other reason for it.

I suppose it is not significant of any thing extraordinary or unfavorable? A.—Oh, no, for one in the president's condition no significance can be attached to a slight variation of pulse.

Does the patient complain at all of suffering pain from inflammation of the parotid gland? A.—He suffers no pain. His neck and jaw continue somewhat annoying, but secretion of saliva is the most annoying feature, as it causes him to cough and consequently lose rest.

How about the wound, doctor? A.—The wound is in excellent condition and the process of granulation has made it considerably smaller than it was.

How large in proportion to the wound is the flexible tube which was recently inserted? A.—The tube used was a No. 8 American measurement catheter which is quite small. The wound will now hold a little less than two ounces of water, while previous to the commencement of granulation it would hold more than three ounces. That will give you an idea how much smaller it is.

The doctor then explained that the small tube nearly filled the channel of the wound, which proves that it was healing satisfactorily.

Shortly after the interview with Bliss occurred, Dr. Boynton was asked if he considered the president as being decidedly better to-day than yesterday.

"No," replied the doctor, "he is not decidedly better. I think there is a slight improvement as compared with yesterday, and I feel more encouraged."

Continuing the conversation, the doctor said in substance that if irritation of the parotid gland passes away without suppuration he will feel much relieved. He thinks that the patient is taking sufficient nourishment to build up on, and barring further complications, he considered the outlook a little more encouraging.

The doctor was asked if it was not a well-established theory that when irritation presented itself in the form of swelling it was always followed by suppuration.

He admitted that such was ordinarily the case, but in the president's condition said that suppuration is not desired because of the possible injury which might follow.

"What is the nature of the injury which is feared from suppuration of the gland?" was asked.

In replying, the doctor said:

"It is impossible to say where it would end should suppuration ensue. It would be possible for inflammation to extend to the interior of the ear, and destroy that organ. It might seriously affect the bones of the face in the vicinity of that irritation, and further than this there would be the danger of impure matter, which gathered about the gland, penetrating the brain, and in addition to these risks it would be a considerable tax on the little strength the president has left."

Dr. Woodward expressed the opinion as he left the mansion about 2 P. M., that the president was doing as well as could be expected. One of the attending surgeons informed a friend during the afternoon that he viewed the case in a more hopeful light to-day than he had for several days. When asked what he thought of the glandular trouble he said while he should have preferred not to have met with that complication, he did not now consider it of serious importance. This surgeon feared that the patient's stomach would not hold out and said that he considered that the most alarming feature of the case. The patient's bowels are said to have acted more naturally and freely this morning than any time before for a week past which is considered an indication that his stomach is again working.

Dr. Bliss Explains the Vomiting.

WASHINGTON, Aug. 21.—To-night's bulletin stating that the president had vomited twice this afternoon was a surprise to the public, and has had something of a depressing effect. Surgeons have said of late that the president's recovery depended upon his stomach. That if it would retain nourishment enough to improve his strength, final recovery might be hoped for. In view of this statement of the case another spell of vomiting is regarded gravely as a most unfavorable symptom. Dr. Bliss says however, that the vomiting did not proceed from nausea, and therefore does not indicate returned irritability of the stomach. He says that owing to the swelling of the parotid gland a mucous collection gathers in the president's throat which it has been difficult for him to expel [illegible] [illegible] two days past [illegible] phlegm in his throat [illegible] efforts to expel the phlegm [illegible]

[illegible]

[illegible] Dr. Bliss [illegible] this afternoon [illegible]

[illegible]

[illegible] D. W. [illegible] [illegible] they [illegible] his [illegible] [illegible] [illegible] the night [illegible] nearly [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]

[illegible] that the general aspect [illegible] take a gloomy view of [illegible] The surgeons at [illegible] the president [illegible] [illegible] [illegible] for the case. [illegible] efforts [illegible] [illegible] to be [illegible] As to his opinion simply referring [illegible] to the bulletins. Whenever the president [illegible] doing well it is not difficult to see the surgeons and attendants.

9:30 P. M.

There has been no vomiting since [illegible] P. M., but there is general anxiety, and a change for the better or worse is expected to-morrow morning.

Anxiety and Gloom.

To-night all the members of the cabinet met at the White House, and they have remained closeted in the cabinet room. There is significant quiet prevailing at the White House. The countenances of the inmates indicate a feeling of uneasiness. To say the least there is fear that the president is too weak to be nourished by enemata, although Dr. Bliss says that this method has so far proven eminently successful, and that the president really gains some strength from it.

The Physicians Apprehensive.

Dr. Boynton said about 9:30 to-night that it was well to admit this vomiting of the president might portend serious results; that whilst it was doubtless true that severe coughing had brought on the vomiting, it might indicate continued weakness of the stomach, and unless the president's stomach will admit of his taking nourishment into it from now on, the case would look desperate. Boynton thought to-morrow would decide the case one way or another. Soon after Dr. Bliss admitted substantially that the condition of the case to-morrow would be likely to show whether the president can recover or not. He expressed himself as feeling hopeful, but said the president must be able to receive nourishment in the natural way if he is to recover. He believed to-morrow would probably show a favorable turn, and if so there would be ground for hope; if on the contrary his stomach should revolt against food, the case will look badly.

The Latest.

The White House was closed at about 10 o'clock to-night, and all but night watchmen, doctors and nurses in attendance upon the president went home. Secretary Brown stated then that the president was sleeping quietly, and had been sleeping most of the night; that he had not vomited again. At 10:30 a night watchman on the upper floor said everything was very quiet in the president's room, and as if he were asleep, and that the doctors were lying down. Nothing direct and positive could be learned from the president.

Midnight Bulletin.

11:45 P. M.—Everything quiet in the sick room. The doctors are asleep and indications are that the president is resting quietly.

Newspaper Views.

NEW YORK, Aug. 21.—*Times* (editorially): The state of the president's wound seems to have become a secondary matter in the treatment of the case, and the problem which nature and the physicians have to solve, is to build up again a thoroughly prostrated system.

Tribune: The digestive system now seems to be recovering its tone. We may all take good courage, convinced that the last danger point must have been passed.

The *Herald*: Dr. Hammond still holds out danger flags. He says: "I have talked with a great many surgeons in this city on the subject, and have not seen a single one but believes that the president has pyæmia."

The *Herald's* Washington special: The next complication in the president's case to be feared is looseness of the bowels, symptoms of which have already appeared. In a short time it will be developed how serious this new trouble is.

A Sanitary Man thinks the President Affected by Malaria.

NEW YORK, Aug. 21.—Egbert L. Viele of this city, a gentleman who enjoys an eminent reputation as a sanitary engineer, and who has had many years of practical experience in dealing with malaria, told a *Times* reporter yesterday that the president was suffering from mumps, superinduced by the malarial atmosphere of Washington. The inflammation of the parotid glands spoken of is but another name for mumps. "I believe that malaria is affecting the system of the president to-day, and it is materially diminishing his power of recuperation. The malarial may be so subtle as not to be detected by physicians, but it is there in his system."

How Hammond was "Sat Down Upon."

Following is the reply of the secretary of war and postmaster-general to the telegram of Dr. Hammond sent shortly after the president was shot, asking if he could be of any service.

EXECUTIVE MANSION, July 4, 1881.
Dr. W. A. Hammond, surgeon-general (retired), New York City: Your kind offer is declined with thanks. We are satisfied with the president's medical attendants. A consultation with eminent surgeons was held this morning.
(Signed) ROBERT T. LINCOLN, Secretary of War.
THOMAS L. JAMES, Postmaster-General.

Imperious Mr. Guiteau.

The recent demonstration of the wretch Guiteau seems to have had no other incentive than his inordinate desire for notoriety. When District Attorney Corkhill was here he visited him almost daily, gave him a stenographer to take down his endless jumble of words, and in various other ways led Guiteau to think himself an important personage. His picture was taken and the wretch seemed to know that it would be sought everywhere and this fed his vanity. Corkhill left Guiteau, with the exception of an occasional visit, to Warden Crocker. He was then treated as the other prisoners. He has been somewhat arrogant to his keepers, but it did not change his treatment. Some days since he complained of headache and imperiously ordered a bandage for it, which not coming as promptly as he thought it would, he tore up his pillow case for a bandage, and as discipline for misdemeanor his next meal was made of bread and water, of which he complained to Warden Crocker, asserting that the value of a pillow case should not be taken into account when it was needed to relieve pain.

WASHINGTON CITY.

The Vice President and the Presidency.

WASHINGTON, Aug. 20.—There is no truth in the report that Vice President Arthur contemplates insisting upon assuming presidential duties. The matter is delicate, and the course of the vice president since the shooting of President Garfield has been of a character to warrant that he would take no part in contemplation of such a plan unless endorsed by members of the present cabinet. The cabinet it is also known has made no recommendation of such a nature, statements to the contrary notwithstanding, and all statements on the subject heretofore published are pure fabrications. It was represented that Postmaster General James had agreed to sustain Arthur in assuming the duties of president, but the postmaster general said to-day, "you may state positively for me I have neither been consulted about the matter nor have I considered it."

Howgate fails to find Bail.

WASHINGTON, Aug. 20.—Captain Howgate has not obtained bail yet, and if he does not get it to-day or Monday will be sent to jail. Investigations show that he robbed the government of a large amount of money through fitting out the Gulnare, which was ostensibly paid for out of his own pocket.

To be Completed.

WASHINGTON, Aug. 20.—General manager, C. W. Smith, of the Chesapeake and Ohio railroad, one of the managers of the Yorktown centennial, says that the road will be completed to Newport in time for carrying passengers to and from the centennial.

The Indian Settlement.

WASHINGTON, Aug. 20.—The secretary of the interior and the Indian commissioner to-day signed a document transferring land from the Sioux to the Poncas. Buffalo Ghost, Aggared, and White Ghost of the Yankton Sioux refused to sign on the general ground that they had been deceived too often in signing papers. They would sign if their people consented. It cedes one section of 640 acres to each Ponca family and each unmarried male Ponca over 21 years old, and must be ratified by congress and three-fourths of the Sioux Indians. Little Chief and his Cheyennes agreed to go back from the Indian territory to the White river country this fall. Kirkwood told him that he would have to pay for transportation of supplies, as they were contracted for to be delivered in the Indian territory. Little Chief said they had some money and could get along without supplies if the Sioux would help them, and Red Cloud said that the Sioux would and them and Kirkwood said the department would try to get supplies transferred to them.

The Indian Conference.

WASHINGTON, Aug. 20.—In the Indian conference yesterday, Little Chief, a Cheyenne, said he and his people had been told to go into Indian territory against their will, and desired to get back to the land the Great Spirit gave them. Red Cloud and all other Sioux chiefs said they were willing to receive the Cheyennes as brothers and would provide them with land. [illegible] when details for the transfer [illegible] be arranged.

Minister Noyes on France, the Panama Canal and the Immigration Question.

WASHINGTON, Aug. 20.—Minister Noyes [illegible] [illegible]

GENERAL NEWS.

SERIOUS INDIAN TROUBLES IN ARIZONA AND NEW MEXICO.

Steamboat Explosion at Chicago—Tobacco going up—Trouble in Texas—Brewers in Council—Etc., Etc.

SPECIAL DISPATCHES TO THE OREGONIAN.

[illegible] Staten, N. Y., Aug. 19. [illegible] [illegible]

[illegible] Staten, N. M. [illegible] several hundred [illegible] was killed the [illegible] [illegible] have brought his [illegible] valley and [illegible] have them buried here. [illegible] west of Lake valley. J. T. [illegible]

The Indian Excitement in the Southwest.

SANTA FE, Aug. 21.—On the 18th Lieut. Taylor had a fight in the San Mateo mountains, capturing a camp of Indians and 20 horses. The Indians are in several parties moving southwest. Every available man under the command of General Hatch is either in the field or guarding settlements. The number of troops is too small, however, and the people are arming for self-protection. A delegation of citizens from Socorro is now here asking the governor to call out the militia for the protection of settlements and mining camps. Three volunteer companies are arming at Albuquerque for service should the Navajoes become restless. So far the troops have had no fights with the hostiles. During the raid some 30 people have been killed, and the soldiers have lost 20 in killed and wounded. Advices from Cuchillo negro under date of Aug. 10 state that the Navajoes are not on the warpath. Some Indians and Mexicans had a row, in which 2 Indians and 1 Mexican were killed, but all is apparently quiet to-day.

Another Attempt to get Stewart's Body.

NEW YORK, Aug. 21.—The *Times* to-morrow will contain a long and interesting account of what may prove a successful attempt to recover the remains of the late A. T. Stewart. The substance of the story is given below. Detectives from this city have during the past week been slowly and patiently working at a clew which they believe may lead to recovery of the remains of the late Alexander Turney Stewart, the stealing of which from Saint Mark's church graveyard excited intense public interest and horror nearly three years ago. Under direction of these detectives workmen yesterday began to dig up part of the ground in Cypress Hill cemetery, in a plot belonging to John T. Runcie. Work will be continued until success or failure of the effort is made apparent. The spot where the excavation is in progress was located by means of a picture which came in a singular manner into the possession of Fuller's detective bureau, the head of which with competent aids has been untiringly at work. Ex-Judge Hilton has interested himself in the proceedings, and yesterday sent a representative to this city to confer with Fuller.

The Delaware Peach Crop.

NEW YORK, Aug. 20.—A *Herald* correspondent after a thorough tour of inspection through the peach growing region of the Delaware peninsula, says that it may be said with every assurance of accuracy that the crop this year will be very short. He places the yield of the entire peninsula at from a hundred thousand to a hundred and twenty thousand baskets, this as contrasted with the average marketing of about four million baskets gives little promise for those who are fond of the fruit.

The Manufacture of Beer.

The brewers in their answers yesterday given to interrogations of a temperance society about modes of manufacturing beer which they adopt, admitted that they often use instead of barley malt such substances as corn meal, corn starch, rice, grapes, sugar and glucose. They add, "We will discontinue the use of these as soon as your society shall show them to be deleterious."

The Sandwich Islands.

NEW YORK, Aug. 20.—The *World* (editorial): It is quite certain that if the Sandwich Islands are to be severed from the list of independent nations, the United States neither ought to or will permit them to pass under any sovereignty except our own. On that point it is to be hoped that President Garfield and Secretary Blaine, may have made themselves as explicitly understood in Europe as we learn from Gen. Noyes to-day that they have done in the matter of our relations with the United States of Colombia and the Isthmus of Panama.

The Herald Story Denied.

The *Tribune* on the *Herald* story of yesterday regarding the new regime, says that Nordhoff, who arrived in this city yesterday from Newport, where Bennett is staying, said that there was no truth in the story. Nordhoff is about to start for California, intending to rewrite his well known book on that state.

The Thomas Summer Season at Chicago.

CHICAGO, Aug. 20.—The last week of Theodore Thomas' summer nights concerts, under the management of Milward Adams, at the Exposition building, closed to-night with the largest audience of the entire season. The venture has been gratifying by its success, and will be repeated next year. The expenses incurred amount to between $24,000 and $25,000, and the receipts have been sufficient to net a handsome profit to the management. The average attendance was in the neighborhood of 2000. Prof. Swing to-night presented to Mr. Thomas, in the name of the music-loving people of Chicago, a beautiful floral tribute, accompanying it with a neat speech. Mr. Thomas responded briefly and paid his orchestra the graceful compliment of saying that to their faithfulness, intelligence and carefulness the public were indebted rather than to him.

Explosion at Chicago.

CHICAGO, Aug. 21.—At six this morning the tug A. B. Ward exploded her boiler, killing three of her crew of seven persons, Capt. W. S. Butler, Mike McDonald, fireman, and Ole Olsen, engineer. The immense boiler was fired like a bullet into a boat house under the north end of the Clark street bridge, near which point in the river the explosion took place. Two bodies are not yet recovered. The tug sank out of sight.

Storm in Colorado.

DENVER, Aug. 19.—Excessive rains of the past few days have caused heavy damage to this state, railroads being the heaviest sufferers. Every road in the state has been more or less damaged by slides and washouts. No trains departed to-day on the Kansas Pacific and cannot be run through on that road until to-morrow afternoon or Sunday on account of a washout three miles long near Deer Tail. The San Juan division of the Denver and Rio Grande is also interrupted by extensive washouts.

Disastrous Water Spout in Colorado.

CANYON CITY, Aug. 20.—A terrible water spout burst somewhere on Grape creek to-day, and at six o'clock to-night whole sections of railway ties, with iron attached, were running in the Arkansas river, together with bridge timbers, huge pine trees, cattle and horses. A passenger train, which left this evening, has not been heard from, and fears are expressed for its safety.

All Safe.

CANYON CITY, Aug. 21.—The train which left here for Silver Cliff last night, and for which fears were entertained, this evening has been heard from. It is laying 13 miles west of here, between two streams, the bridges over which have been washed away. From the number of ties, bridges, &c., which floated by here this evening it is estimated that the railroad will not be open to Silver Cliff for nearly a week.

Base Ball.

CHICAGO, Aug. 20.—Chicago, 10, Detroits, 3.
WORCESTER, Aug. 20.—Worcesters, 6, Bostons, 1.
PROVIDENCE, Aug. 20.—Providence, 4, Troys, 9.
CLEVELAND, Aug. 20.—Clevelands, 3, Buffalos, 4.

Robber Killed.

LAWRENCE, Kas., Aug. 20.—Ex-Policeman Harmon, who disabled a burglar to-day while trying to pick the lock to a safe, received a shot in the breast which did little injury, and then gave the alarm. The burglar mounted a horse and fled, but was hotly pursued by the officers and crowd. Being brought to bay he fired shots at two colored policemen, who returned the fire killing the thief instantly.

Advance in Tobacco.

LOUISVILLE, Aug. 20.—The tobacco market is excited and higher, prices exceeding those of any year since the high premium on gold subsided.

A Kentucky Village Destroyed.

LOUISVILLE, Aug. 20.—The business portion of Irvington, Ky., burned, loss $60,000 to $75,000, small insurance.

Killed by Lightning.

PRINCETON, Ky., Aug. 20.—An aged negro woman, Betsy Stokes, was killed and a little negro boy crippled, by a stroke of lightning last night.

Resistance to Law in Texas.

GALVESTON, Aug. 20.—A *News* special from Orange says the night of the 17th Sheriff Mitchell was dangerously wounded by a party of negroes instigated by bad white men. A posse immediately went to the scene, resulting in shooting [illegible] [illegible] and several were wounded. Great excitement prevails, the military and citizens maintaining order. Eight blacks and one white man are under arrest. Sheriff Mitchell it is thought will recover.

Comet Located.

A. W. [illegible] discovered a comet visible [illegible] [illegible] P. M. in the constellation [illegible] [illegible] with [illegible] telescope.

Chosen President.

LONDON LETTER.

The Herald's review—A Brilliant Social Season [illegible]

[illegible]

Much indignation has been expressed [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] he was utterly ashamed of [illegible] [illegible]

While London has been [illegible] Dr. [illegible] with [illegible] Paris with a [illegible] during the last few days. A blind [illegible] [illegible] [illegible] [illegible] Christ's hospital has been among the [illegible] [illegible] [illegible]

Funeral of Dr. Mattericci.

The body of Dr. Mattericci, the African traveler, was consigned to the grave at Bologna with every mark of respect, public and private. His friend Lieut. Wassai, the companion of his arduous explorations who had accompanied the body from London, was prevented by fatigue and sorrow from being present. Among the pall bearers were the representatives of the several royal houses besides various other personages of distinction.

Horse Talk.

LONDON, Aug. 21.—Peregrine is being scratched. Iroquois seems to have the road for the Saint Leger at his mercy. New Market critics are backing him heavily. Probably he will be backed against the field before the day of the race, even if the enthusiastic Yorkshire man, when they see Archer on his back, don't actually lay odds on him.

On Thursday a consignment of 40 Clydesdale horses, mares and fillies left Glasgow for Liverpool for shipment to New York. A second shipment of 50 leaves Glasgow Saturday next including the noted stallion, Druid, winner of the cup at the Royal Agricultural Society show at Tilburn.

Art and Literature.

LONDON, Aug. 21.—The sculptor of the day, John Everett Millais, has been appointed a trustee of the national portrait gallery in place of the late Dean Stanley.

The concluding volumes of the letters of Dickens will be published by Chapman & Hall in October.

Alfred Tennyson is working at another drama.

Miss Braddon is issuing a penny edition of Scott's novels condensed.

The Irish.

Mr. Parnell is agitating for protection of Irish manufacturers.

The latest phase of "Boycotting" comes from Templetuohy, Tipperary, where Mrs. Powers Lalor evicted one of her tenants, and the people of the district for at least two Sundays, have been placing an evicted man in Mrs. Lalor's pew in the parish chapel built by herself.

Effect of the President's Death.

An interview with financiers as to the chances attending the president's death has had a good effect. It is scarcely probable that any great fall of securities will take place in view of that event.

High Life Social Notes.

Christine Nilsson has been invited to Copenhagen to take part in the fetes attending the marriage of the crown prince of Sweden.

Great preparations are being made in the duchy of Baden for the event of the silver wedding of the duke and duchess of Baden and the marriage of Princess Victoria.

The health of the empress of Germany is much ameliorated.

Personal.

LONDON, Aug. 21.—The *Daily News* completes the list of members of the house of commons who intend to visit the United States during the autumn by naming Mr. Lyon Playfair, Sir Sydney Waterlow, Mr. Samuel Morley, Mr. Arnold Morley, Mr. James Bryce and Mr. Thorold Rogers. Mr. Bryce is going to San Francisco and will not return to England till December. Mr. Butler Johnson leaves Liverpool next Saturday for America. Mr. John S. Clarke sailed Wednesday from Liverpool. Alfred C. Etter on Thursday by the Britannic. Henry Pettit and [illegible] Lee on Wednesday in the Helvetia.

Accepted.

Major Serpa Pinto has accepted an invitation to take part in the approaching geographical congress at Venice.

BY ATLANTIC CABLE.

Irish Appropriations before the Commons.

LONDON, Aug. 20.—In the commons last night, during the debate on the vote for salary of the chief secretary of Ireland, Parnell said that he thought Forster more detested by a large body of the Irish people than any of his predecessors on account of the mode in which he has administered not only the coercion act, but the general law of the country with regard to the future. He said that if the land bill brought about a substantial abatement of rent, the Irish people he thought would make the best of it, and would use it as an instrument for attainment of a complete land reform. Dawson, Redmond and Barry, Irish members, joined in condemning Forster. The language was more or less strong. Barry declared that Forster's name was held in execration, and that he had worked the coercion act to stifle the land league. Parnell severely criticized the recent crown prosecutions. Healy and others sharply attacked the conduct of Irish stipendiary magistrates. Irish estimates have been disposed of with the exception of five items. Among them is the vote for the constabulary.

LONDON, Aug. 20.—In the commons this afternoon Parnell's motion for release of Davitt was defeated 62 to 19. The house then resumed consideration of business in committee of supply. If the house is unable to conclude the business of supply to-day parliament cannot be prorogued on the 27th inst.

A Nihilist Scheme.

ST. PETERSBURG, Aug. 20.—A correspondent says that the police have recently traced a gigantic conspiracy for tampering with the army, in which men of high position, including four colonels of the line, were engaged. The plan was to introduce nihilist literature and to enforce most rigid discipline on the pretense that it was specially ordered by the czar. The peasantry are said to be demoralized by nihilism, and as common soldiers are drafted from the peasant ranks it is difficult to see how the loyalty and morale of the army can be preserved. The revelations of, the alleged Leo Hartman, which have been published in New York and cabled to Europe, are ludicrously inaccurate, and although Russian officials do not pretend to say that he is not in America they deny the truth of his story.

The Cold Sea.

Sibeviakoff has determined after all not to send the steamer A. E. Nordenskiold, to the assistance of the Oscar Dickson and the Bookand, frozen up last winter in the gulf of Obi. He has been making arrangements for their relief at Obdorsk on the river Obi, and has dispatched a large number of reindeer with coal and oil required to enable vessels to leave the gulf. The international polar conference, which was opened a few days ago at St. Petersburg, is held for the purpose of settling arrangements for expeditions about to be equipped to investigate magnetic and meteorologic conditions prevailing in the polar regions. Delegates of, Denmark, Russia, France, Norway, Sweden, the Netherlands and Austria, took part in the opening discussion. America will erect a station at Point Barrow and in Lady Franklin Bay, and Denmark in Upernavic, Russia.

The Coming French Elections.

PARIS, Aug. 21.—The nearer we draw to the hour of the general elections, the clearer it grows that the reactionary parties—monarchists of all shades, Bonapartists and legitimists—together with their allies, the clericals, are on the eve of a great and perhaps irretrievable defeat. Of the 187 anti-republican candidates who have the courage to tempt fortune once again at the polls, not half will probably be elected. The new chamber, we may therefore suppose, will be almost entirely composed of three great groups—moderates or conservatives, republican progressists or Gambettist republicans, and radicals, but in what proportion the groups may be represented it is of course quite impossible to foretell, judging from a list of candidates supported by the *Republique Francaise*, and the Gambettist committee in the rue de Suresnes. M. Gambetta feels less sure of his own group, the progressists of union republicans carrying all before them.

Storms in Austria.

VIENNA, Aug. 21.—Excessive rains during the last few days have damaged crops in many places, and in the districts of Laibach and Carinthia they are entirely destroyed.

France and Spain.

PARIS, Aug. 20.—The reply of Spain in regard to a claim for indemnity for damage suffered by Spanish subjects by the recent raid at Saida, recognizes expediency of entertaining Spanish claims, but so [illegible] international law as [illegible] [illegible] friendship and humanity. Spain expresses the hope that the matter may be speedily settled and the [illegible] relations between France and Spain [illegible] St. Hilaire on receiving the note merely [illegible] statement of the claim which Spain [illegible]

Fatal Accident.

Through Train.

YUMA, A. T., Aug. 21.—The first through train from Tucson has just arrived, thirty-six hours on the road. The road is in bad condition between here and Tucson but being rapidly repaired.

NEVADA.

Mining Work at Virginia.

VIRGINIA, Aug. 20.—Measurements made to-day show that the water in the Savage mine has reached 22 feet above the bulkhead, was opened. They will start the pump in three or four days, and pump out the remainder of the water, when sinking will be resumed. Work will soon be commenced on the 2500-foot level, also the taking out of ore on the 1600-foot level next to the hanging wall. They have three feet that averages $138 per ton, then a streak of eight feet averaging $538. They calculate, that a width of 34 feet west from the clay of the east wall will average $24. They will probably start with a width of two square sets next to the hanging wall. To-day the water has so far decreased at the Union shaft that there was no more than could be handled by the pumps, therefore the tanks were taken off. It is not yet known whether this will prove a permanent decrease.

EASTERN WASHINGTON.

Disastrous Fire at Cheney.

CHENEY, Aug. 20.—Cheney was visited by a fire this morning with the following losses:

Payne & Kirk, general merchandise store; loss on stock between $8000 and $9000, loss on building, $500; insurance, $7500.

T. Wiley, butcher shop; total loss about $2000, no insurance.

Stratton & Harrington, damage to goods and building between $2000 and $2500; insured.

R. T. Winn, loss on saloon stock, $130.

Libbie Medley, loss on confectionery goods, $150.

All the parties will rebuild at once.

NEW MAGAZINES.

St. Nicholas for August opens with a sketchy article from "Sandy Hook to the Lightship," gives another and interesting installment of "Phaeton Rogers" and the tenth chapter of Dr. Oswald's "In Nature's Wonderland." Of the minor articles, "Under a Flywheel," and "How Miss Jenkins Got Out of It" are very good, while Proud Prince Chaun presents some novel ideas both in verse and illustrations. Published by the Century Company, New York City.

The Popular Science Monthly for August contains interesting contributions from Professor Huxley on The Herring, from Dr. Oswald on Physical Education, from Herman L. Fairchild on The Blood and its Circulation, and from first class authors on The Teachings of Modern Spectroscopy, Origin and History of Life Insurance, The Insufficient Use of Milk, School Room Ventilation, and a variety of speculative and practical subjects. D. Appleton & Co., Bond street, New York, are the publishers.

Scribner for August, the midsummer issue, is rich in all that goes to make up an excellent magazine. In its illustrations, its choice poetry, and in the excellence of its stories and miscellany, there are only found words of commendation. Two novelettes begin in the midsummer number. The articles are of the kind to be welcomed by a summer audience. Among them are "The Isle of Peace," by Susan Coolidge, a description of Newport; as a contrast, "By the Sea in Normandy," by Mary G. Loring, chronicles the daily life at a French watering place—Etretat. The other features of the magazine are up to its usual standard. The Century Company, 743 Broadway, New York.

Temperance Reform.

Dr. Woolsey, ex-president of Yale college, says in a long interview printed in the New York *Tribune*, that he advises all of his young friends to form no drinking habits. He advises no one to take a pledge, but to abstain from liquor drinking, especially spirits, from principle. His position is substantially the same as that of Rev. Dr. Crosby. He says: I do not think the advocates of the total abstinence pledge are likely to reform the country. They have advanced about as far as they can go. It is better to advocate reform on Dr. Crosby's grounds than on theirs, I think. As to the use of light wines and ale, it would be better for the nation if they were introduced freely enough to abate the consumption of fiery liquors. Intemperance is an evil which cannot be overcome at once, and reformers must be content to regulate the sale of liquors so far as their work relates to a certain part of large communities. A permanent temperance reform must come through the establishment of character on just and right principles.

THROW PHYSIC TO THE DOGS.

A great portion of the suffering and distress in this country is due to the fact that the people take too much physic and too many drugs. If you want to preserve your health, save doctors' and druggists' bills, use the California Pine and Eucalyptus Porous Plasters for all pains. For sale by Woodard, Clarke & Co., Portland, Oregon.

It is to be hoped that the poisonous Ague medicines have had their day. Arsenic and quinine are not desirable commodities to carry about in one's system, even for the sake of temporarily displacing the malarial poison which produces Fever and Ague. Ayre's Ague Cure is a sure antidote for the Ague, and is perfectly harmless, leaving the system in as good condition as before the Ague was contracted.

Swallowing POISON

Spurts of disgusting mucous from the nostrils or upon the tonsils, Watery Eyes, Snuffles, Buzzing in the Ears, Deafness, Crackling sensations in the Head, Intermittent Pains over the Eyes, Fœtid Breath, Nasal Twang, Scabs in the Nostrils, and Tickling in the Throat are

SIGNS of CATARRH.

No other such loathsome, treacherous and undermining malady curses mankind. One-fifth of our Children die of diseases generated by its Infectious Poison, and one fourth of living men and women drag out miserable existences from the same cause. While asleep, the impurities in the nostrils are necessarily swallowed into the stomach and inhaled into the lungs to poison every part of the system. Dr. Wei De Meyer's Catarrh Cure absorbs the purulent virus and kills the seeds of poison in the farthest parts of the system. It will not only relieve, but certainly cure Catarrh at any stage. It is the only remedy which in our judgment, has ever yet really cured a case of Chronic Catarrh.

Cured! Cured! Cured! Cured!

[illegible] N. [illegible], Dentist, with Dr. Brewer, 8 Montgomery st., San Francisco, cured of 15 years' Catarrh.

[illegible] McDonald, 706 Broadway, N. Y. [illegible] cured of 40 years' Chronic Catarrh.

W. [illegible] Davenport, The Dalles, Oregon, "The only article which cures."

[illegible] Hall River Mills, Cal. Cured 20 years' [illegible]

[illegible] Wilmington, Cal., cured of 5 years' Catarrh.

[illegible] Golden City, Col. Member of [illegible] cured of 25 years' Catarrh.

WEST INDIES.

Stamping out Rebellion in San Domingo.

HAVANA, Aug. 20.—Advices from San Domingo to the 2d inst. state that on July 29th an emissary of the government discovered the hiding place of Gen. Zamon Prez and Julius Tras and the wounded officers belonging to the party of General Alvarez. On the afternoon of the same day all were shot in the cemetery of San Domingo city notwithstanding the intercession of the diplomatic corps and ecclesiastical body. An immense crowd witnessed the execution from the fortress walls. On the 2d of August the diplomatic corps again asked in vain for pardon of nine more adherents of Alvarez who had been condemned to be shot and eight of the number were shot that day.

Methuselah died aged 969. Be content if you live one-tenth that time by keeping your blood pure and in active circulation by use of King of the Blood. See advertisement.

RUPTURE CURED

BY THE USE OF THE

HENDRICKS ELASTIC PAD TRUSS.

WHICH IS A COMPLETE RELIEF TO THOSE who are thus afflicted, and in most cases a perfect cure. This Truss is every way different from any used, having an Elastic Pad which is a Sure Retainer soft as the flesh, but never heating. It is not like the Elastic Band Truss, which Binds most where not needed; nor like the Hoop Truss, so apt to chafe and injure the spine and pelvic bones. It is simple in construction and easily adjusted to any case of Rupture whether slight or severe. Send five cent stamps for circular and price list. H. W. HENDRICKS, 51 Morrison street, Portland, Or.

THE

SCOTTISH UNION

AND

NATIONAL INSURANCE CO.

This Company is among the oldest and strongest companies in the world. Its organization dates back to 1824. Of the ninety-five companies doing business on this coast, and the 169 reporting to the New York insurance department, in point of paid up capital it ranks No. 9, while in point of assets it ranks No. 6. Adding its subscribed capital, subject to call, amounting to over $20,000,000, which, under the stringent laws of Great Britain governing unpaid capital, as fully illustrated in the failure of the Glasgow Bank, is available to the last dollar for its liabilities, it stands at the head of all the companies doing business in America; making in all, in actual resources, $33,717,290.68, and every policy issued pledges on its face, and in its contract binds its actual fire assets, every dollar of its authorized and subscribed capital of $30,000,000 to the payment of its fire losses.

EDITORIAL

The high station of President Garfield and the importance of his life to the country are both an advantage and disadvantage to him in his present suffering. The advantage is found in the most careful and unremitting attention by surgeons and nurses, and the disadvantage consists in the fear of the surgeons to apply to so illustrious a patient the heroic treatment which they would readily adopt, and perhaps with best results, in an ordinary case. No one supposes that the president has had the same treatment would have been pursued in the case of a private individual. In some respects it has been better, of course, while in other particulars it may have been actually less judicious and scientific. Through natural fear of mistake the counsels of timidity and hesitation have been followed:—at all events it would be strange if they had not. The case is one in which the surgeons have naturally felt that they could not take the risk of mistake. Extreme caution, therefore, has necessarily characterized the treatment throughout. So great a responsibility would naturally produce irresolution, and to some extent inaction. Surgical courage is an essential part of surgical judgment; but it is baffled or disabled in cases where the importance of avoiding unnecessary risks is always the uppermost thought. It is not certain, indeed, that the surgeons would have "gone for the ball" had the president's secretary been wounded instead of the president himself but in the same manner; yet the strong probability is that they would have done it. Extraction of the ball, were it practicable, would, of course, greatly increase the chances of recovery. But as that operation was regarded as hazardous, the treatment from the beginning has been to nurse the patient as well as possible and hope for the best. It may be, indeed, that this is the very best course that could have been pursued, yet it is extremely doubtful whether it would have been pursued in any similar case where the life at stake was one in which only a common interest was felt by immediate friends and none by the country at large.

Richard Smith, editor of the Cincinnati *Gazette*, said in a recent address that "thirty years ago $5000 cash and a little credit were deemed sufficient to start a daily paper in Cincinnati. Now, to start a daily paper, with the expectation of establishing it, would require a cash capital of $500,000, and that would in all probability be lost in the venture." A great and successful newspaper, in any city, is a growth. It can not be created with money. And since the field of journalism has become so greatly extended, and since the large use of the telegraph has placed journalism on a totally different ground from that which it occupied a few years ago, the tendency is constantly toward an improvement of established journals which makes competition with them by new ventures more and more difficult and hazardous. It is doubtful whether $500,000 embarked in the effort to establish a complete newspaper in any one of our large cities would place such newspaper on a basis which would enable it to pay its expenses; and in the smaller cities, where established journals already have the field, the problem would be proportionately difficult, costly and of uncertain result.

Statistics just published show that the manufacture of pottery in the United States has largely increased during recent years. On the first of June, 1880, there were 104 establishments of all kinds, large and small, in the country, having in the aggregate 320 kilns. The amount of capital invested was about $4,000,000; number of hands employed about 5800; and the total value of products $5,000,000. New Jersey is the principal seat of this industry, though potteries are scattered through Massachusetts, Pennsylvania, Maryland, Ohio and Kentucky. The output of these establishments consists chiefly of cream-colored, white granite, porcelain, and the general line of hotel and staple wares. Preparations are making for producing the finer classes of goods on a large scale, and it is said that in five years from now American decorated china will be fully equal to that of Europe. In Clatsop county in this state there is an abundant supply of kaolin, of the finest quality, which some day will be utilized in manufacture of the staple wares of the crockery trade.

It is somewhat singular to note the great number of soldiers who received serious wounds during the war of the rebellion, who have had from the first report of the shooting of the president the greatest confidence that he would recover. Eastern journals report many expressions to this effect from such sources. Men who have passed through the ordeal hold on to their faith, while the public loses hope because of the slowness of the president's recovery, or rather the more of the ... and serious relapses that periodically overtake him. Let it be remembered that many who were shot in the war had to lie in hospital for months, and then crawled about for months before they recovered any strength ...

... consumption of liquors, especially malt liquors, is much less. But we are the largest consumers of coffee in the world. Home consumption imports of coffee into the United Kingdom during the last calendar year were only 32,562,824 pounds for an aggregate population of 34,180,161, or scarcely 95-hundredths of one pound per capita. Our home consumption imports of coffee in the year ending June 30, 1880, were 446,683,676 pounds for 50,152,866 people, or nearly 9 pounds per capita. In the thirty-one years which ended with June of last year, our import entries of coffee from all foreign countries amounted to 7,221,321,354 pounds valued at $871,481,032, a sum more than half as much as the principal of the bonded debt of the United States at this time. Of these totals, 5,236,476,457 pounds, or 73 per cent. of the quantity, and $615,501,934, or 70 per cent. of the value, were derived from Brazil alone. This country takes about half of her annual crop.

DIED.

The Daily Oregonian.

MONDAY MORNING, AUGUST 22, 188[illegible]

CITY.

[illegible]

DEATH OF JAMES REED.—... Mr. James Reed, ... was ... to a ... be ... and was promoted with a severe ... He had been affected with ... past and the ... the disease ... and was finally taken to St. Vincent's hospital. After lingering for a week, he quietly breathed his last yesterday morning at that institution. Deceased was a young man of ready, industrious habits, and respected by all within the circle of his acquaintance. In respect to his memory, the flags are displayed at half mast over the various engine houses of the city.

A SOUTH KNOCK-DOWN.—Two Italians while drinking at Schmeer's saloon on First street yesterday, got into a dispute about some matter, when one of the disputants getting into a furious rage, picked up a chair and struck the other a blow on the head. So powerful was the blow that the fellow was knocked senseless and remained in that condition for some little time. Complaint was entered at police headquarters, and the assailant was arrested and lodged in jail. He will have a trial to-day on the charge of assault. The man who was knocked down suffers no further inconvenience than a very sore head.

UNDER BONDS.—Miss Mollie Moss, a young woman who does not enjoy a cloudless reputation, was examined before Judge Stearns on Saturday on a charge of larceny. It was charged that defendant had taken about the sum of $107 from a man named Nicholls, who visited the house of questionable resort where the young woman was stopping. Deeming the testimony sufficiently conclusive, the court held the defendant to await the action of the grand jury in the sum of $500. Bail was furnished and the woman released.

DECLINING THE CALL.—From the Oregon City *Enterprise* it is learned that Rev. J. W. Sellwood of East Portland has declined the call from Oregon City. He told that he was under obligations to the people of East Portland, and that he would not be doing right to leave them, as they had gone to considerable expense for his especial benefit. It is a matter of universal regret among our citizens, who still hope at some time in the future to have Mr. Sellwood and his estimable wife once more in our midst.

STILL AT THE TRACK.—Since the close of the races at the City View Park, several horses that participated in the tests of speed are still at the track. Among the animals may be mentioned the well-known trotters Milton Medium, Stattie, Billy Barlow and Inauguration. Several others of lesser note are there also. It is probable that all horses which are there now, and are not to be taken to the Hillsboro races, will remain where they are until the fall meeting of the N. W. D. A. A. at the Riverside.

ANNIVERSARY EXERCISES.—The tenth anniversary exercises of the Portland Turn Verein last evening at Turn Halle were very enjoyable and well attended. A very appropriate address was delivered in German by R. F. Schesdorf, Esq. Following the address came a series of gymnastic exercises, interspersed with vocal music by the singing section of the Turners. Concluding the musical and muscular exhibition was a dance in which all present heartily participated.

OPERATION DEFERRED.—The *Vindicator* says: "Jacob Wills, who has already suffered two amputations of his left finger, will have to submit to a more painful operation still. Erysipelas has set in and it is probable that he will lose a greater portion of his hand. A large abscess has formed on one of his legs, caused from blood poisoning, that keeps him very low, so that the operation has been indefinitely postponed to await a favorable opportunity."

BACK AGAIN.—Jimmy McCafferty, who for many years has been a runner, for several of the leading hotels of Portland, returned to the city Saturday after five months' absence. During his absence Mr. McCafferty has been in the employ of the O. R. & N. Co., between this city and the Dalles. He had charge of the commissary stores on the railroad line now being built. This morning he will commence work at the Esmond.

STEAMER OVERDUE.—The new steam collier Mississippi arrived in port at ... last evening. The ... was expected, but up to a late hour she had not arrived. The lines have been down all day, consequently there has been no means of knowing when she crossed the bar, if at all. When the Mississippi left Astoria, 11:30 A. M. yesterday, she had not been sighted. The Oregon's arrival may be at any moment.

BIG BLASTS.—A gentleman who has been in the employ of the O. R. & N. Co., on the line of road between the Cascades and The Dalles, informs us that the work of laying the roadbed is being pushed forward as rapidly as circumstances will permit. A large force of men is engaged in blasting and grading this side of The Dalles. To-day several very large blasts will be exploded at camp No. 17.

COMPLETED.—Mr. E. A. Habersham of the United States engineers' office, arrived at this city Saturday afternoon, having completed the survey of the canal between Baker's bay and Shoalwater bay, in Washington territory. Mr. Habersham will leave in a few days for the Chehalis river to make an inspection of a couple of drifts which obstruct the navigation of that stream.

THE LATE GEORGE MARTIN.—The unfortunate man, George Martin, who was run over by a reaper near Forest Grove, on the farm of Mr. Buxton a few days ago and killed, had an uncle who resides in Canandaigua, New York. He had a brother who for some time was in the employ of the Oregon Transfer company, but who is now supposed to be in San Francisco.

NO VERDICT—DISCHARGED.—The jury in the case of the state of Oregon vs. J. G. Robeson, charged with the murder of J. D. Robb, after deliberating for a long time failed to agree upon a verdict. The jury stood nine for conviction and three for acquittal. Not being able to reconcile their differences, the court discharged the jurors Saturday night.

STEAMSHIP COLUMBIA.—The steamship Columbia, sailed from this port for San Francisco at midnight Saturday with a large number of passengers, the mails, and the following freight: 12,801 sks wheat, 300 bdls laths, 218 sks oats, 208 bxs dried apples, 3 bales wool, 11 cs eggs, 3 crates crockery, 16 pkgs government freight, 60 tons pig iron.

BISHOP HARRIS.—Bishop Harris, who is presiding over the deliberations of the M. E. conference now in session at East Portland, preached a most excellent discourse in the church at that city yesterday afternoon. The auditorium of the M. E. church was crowded to its utmost capacity on the occasion.

PRIVATE CONCERT.—Last evening the members of the Kentucky Jubilee Singers held a private concert in the parlor of the Occidental hotel, at which place they are stopping. Only a few invited guests were present. The occasion was quite successful and the music a treat which all present appreciated.

THE COLUMBIA.—The steamer Columbia which left here Saturday at midnight was delayed at Fog's ... two hours waiting for the tide. She arrived, however, at Astoria at an early hour yesterday morning, and we suppose went out to sea some time during the afternoon.

BUTCHERS' BARBECUE.—The barbecue which was given at Gambrinus gardens yesterday by the butchers was well attended, and a jolly time experienced. During the day several hundred persons visited the gardens.

B. H. L.—Bethel Home Lodge No. 1, I. O. G. T. of the world, meets ... at ... o'clock, corner ... and ... streets.

BRIEF NOTES.

Three picnics yesterday.

The new steam collier is in port.

Everything quiet in police circles.

The jury in the case of Robeson failing to agree, has been discharged.

The public will please pay special attention to ads under head of "New Advertisements."

The clerk of the weather was in a threatening mood yesterday, but failed to give us any rain.

The M. E. conference, which has been in session since Tuesday, will probably adjourn to-night.

Mr. W. E. Sheridan and company leave on the State of California Wednesday morning at 12 A. M.

... Neimeyer, the merchant tailor, is a passenger on the Columbia. During his absence will purchase a ... new style suitings ... qualities and patterns.

BASE BALL.

The game which came off yesterday afternoon at The Oaks, in East Portland, between the Buffaloes of Vancouver, and Stars of Portland, was attended by quite a large crowd, and was warmly contested. The game was called at 2 o'clock, and lasted two hours. ... Gillner acted as umpire, and ... the ... score. The following is the score:

SCORE:

Buffaloes.	O.	R.	Stars.	O.	R.
Schiller, c	3	1	Drennen, r. f	6	3
McConnell, p	2	3	Coulter, 1st b	2	3
Cornish, 1st b	3	1	Brandt, c	4	3
Gardner, 2d b	3	0	Miller, 2d b	2	4
Foley, 3d b	3	0	Fellows, s. s	5	3
Ward, s. s	3	0	Campbell, 3d b	2	4
Hall, r. f	3	0	Parsons, l. f	1	5
Tompkins, c. f	4	0	Marlarkey, c. f	1	2
Mackay, l. f	3	1	Dunlway, p. & c. f	3	1
Total	27	4	Total	27	27

BY INNINGS.

	1	2	3	4	5	6	7	8	9	
Stars	4	0	2	1	1	4	7	6	2	—27
Buffaloes	2	0	0	0	2	0	0	0	0	— 4

Previous to the match, the Star Club was presented by Mrs. Park Brandt, with two elegant foul flags of cherry color silk, each bearing on one side in blue silk, the letters "S. B. B. C." on the other a star.

The Stars are requested to meet this evening at Justice Petrain's office, on Oak street, to attend to business of importance.

AMUSEMENTS.

SATURDAY NIGHT'S PERFORMANCE.—The performance of the Kentucky Jubilee Singers was, contrary to general expectation, far better than was anticipated. The impression seemed to have prevailed that the company was only one more of the array of light waisted combinations that has been inflicted upon Portland of late, but while not being possessed of any extraordinary merit, the jubilee singers succeeded in giving an entertainment that apparently was well enjoyed by those present. On the whole the performance was infinitely superior to the late operatic attempt or the "Mirror of Ireland" burlesque. The choruses given by the jubilee singers proved the most attractive feature of the programme, although the absence of a good bass voice was apparent. Miss Maggie Webb sang two solos, both of which were heartily encored and deservedly so. The remaining members of the company were in their specialties passably fair. To-night the Jubilee Singers will give another performance, their last in the city, and the attendance will no doubt be far better than on Saturday night.

ILLUSTRATED LECTURES.—Dr. Truesdell's private illustrated lectures on Manhood and Womanhood still increase in interest—this being the sixth week of the series. By reference to our advertising columns the public will note the doctor's "change of base" to a more commodious hall (the Masonic Temple) for his future lectures, where the ladies will have the advantages of "the elevator" to reach the lecture hall.

RESERVED SEATS.—The sale for reserved seats for the coming "Sheridan" season at the New Market Theater will commence to-morrow at 10 A. M. Mr. Howe, the business manager, having had several applications for season tickets has concluded to issue one hundred. These can be had without extra charge at D. W. Prentice's. This will enable those who may have a choice of seats to secure them. The season is positively limited to seven nights. There will be two matinees Wednesday and Thursday of next week.

NEW COMET.

ASTORIA, Aug. 17, 1881.

TO THE EDITOR OF THE OREGONIAN:

A writer whose letter you publish in THE OREGONIAN of to-day, states that another comet has appeared in the northern heavens; referring to which you intimate a doubt as to the accuracy of his observation. The comet is distinctly visible from this place to-night. Its position at exactly 9 o'clock is as nearly as can be determined without instruments, N. 22 deg. west, and 25 deg. above the horizon. The broad reach of water over which the view is to be obtained here would naturally make the comet appear higher than it would appear if seen from inland, unless upon level prairie. The tail of this comet extends upward and eastward, nearly parallel with a line passing through the two stars which form the eastern part of the "dipper" in Ursa Major. Yours very respectfully, WM. LAIR HILL.

SUMMER SMILES.

The young woman who used to sing so divinely, "Oh, had I the wings of a dove," is satisfied with a chicken leg now. She is married.

The editor who saw a lady making for the only empty seat in a car, found himself "crowded out to make room for more interesting matter."

"Yes," he cried passionately, "I love you so true, so true—" "Never mind, darling," said she, artlessly, "I'll have my trousseau ordered at once."

"I hope this is not counterfeit?" said a lover, as he toyed with his sweetheart's hair. "The best way to find out is to rung it," was the quick reply.

Strips of bad are used by many girls in frizzing their hair, as it does the thing better than pieces of newspaper. Step by step the press is losing its grip.

A fashionable young woman at Vassar was asked by the classical professor for a definition of Ambrosia. After some hesitation, she replied, "I think it is kind of hair oil."

The gas suddenly went out at a San Jose concert the other evening, and when it was relit a young lady accused a happy looking man, who sat on the next bench, of kissing her in the darkness. The man tried to explain, but some of the lady's friends seized and proceeded to fire him out with expedition. As they reached the door the victim managed to gasp out, "Me kiss a woman! Why, I am just divorced!" That settled it. He was apologized to, and the man of experience proudly resumed his seat.

We are leaders not followers—in our business. If you want a nice clean carriage or coupe, with a gentlemanly and competent driver, go or send to the City Stables. ACKER & LEIHY.

Remember that Child's drug store is on the corner of Second and Morrison sts.

SINGER SEWING MACHINE

Office removed to 92 Morrison near Fifth.

WHITE SEWING MACHINE,

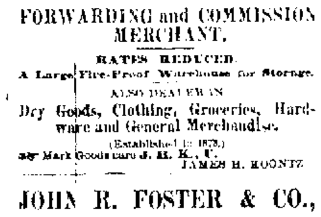

The best in the world. S. M. Barr, Agent, 171 First street, Portland.

Wife is at last satisfied. Earley, 32 Yamhill street, has put the sewing machine in good order.

All modern improvements. Restaurant the best in the city. Open all day.

J. H. BRENNER, Prop'r.

BARGAIN ROOM FOR CLOTHING.

We can lose profits, but we mustn't lose sales. We have divided our clothing into two parts. One part consists of that which must be sold quickly at whatever price it'll bring quickly in August. The other part consists of that which will go any way. The former is marked down sharply in proportion to the urgency of each case. It consists largely of whole suits for men and boys of all sizes and partly of odd garments. If we had no other clothing but this which is marked down we should have a large and, we may almost say, a full stock. As good clothing as we have in store is among it.

J. KOHN'S CLOTHING PALACE, First and Morrison.

NOTICE OF REMOVAL,

TUSTIN & MURTON,

MADE TO ORDER

On one Day's Notice.

THE OREGON M. E. CONFERENCE.

SPECIAL MEMORIAL SERVICE

In Memory of the late Bishop Haven, by the Oregon Conference.

A Touching Address by Bishop Harris—A Monument to be Erected to the Memory of the Late Bishop.

Third Day's Proceedings.

[illegible]

Bishop Harris presented ... the first speaker ... length the ... of the character ... a little time ... interest in the ... sketch for ... touched, and even face bathed with tears as the speaker feelingly and in broken words referred to the death of his colleague and brother in Christ.

At the conclusion of ... Dennison read a ... the journal of the ...

H. K. Hines, editor ... and G. W. Izer ... conference with the late Bishop ... remarks.

A motion was made by P. F. Tower that a committee of three be appointed to ... with the church's relative to the ... monument to the memory of Bishop Haven in the cemetery where his remains now ... I. N. Dennison, W. Izer and P. F. Tower were appointed such committee.

Announcements were made, notices were given and the conference adjourned to meet Monday morning at 9 o'clock. The doxology was sung and the benediction was pronounced by Rev. DeVore.

REAL ESTATE TRANSACTIONS.

From Aug. 11 to Aug. 19.

NEWSPAPERARCHIVE®

NEWSPAPERARCHIVE®

THE NORTHWEST

Western Oregon

Washington Territory

The rate of taxation in Chehalis county for the year '81 has been established as follows ...

Prescott the new N. P. R. R. railroad town is located on the Touchet where the railroad crosses the stream. It has a fine natural location being above danger from high water close to an abundance of fire wood and has excellent water power. The site has lately been surveyed and lots are now in the market.

The taxes for 1881 for Clarke county have been levied as follows: For county purposes $9000 at the rate of mills and poll tax of $ For school purposes $7000 at the rate of mills. For road purposes $6000 at the rate of 4 mills and $4 road poll tax. Three mills for territorial tax was also levied making the tax rate for 188 twenty mills or two per cent.

The following is the census report of Clarke county as taken by the county assessor ... during three months from the first Monday of July of this year: dwellings 991, families 1000, males 1990, females 17 married 1,033, unmarried 31 ... Total population of Clarke county 47

Port Blakely ... Two vessels are loading and two more are daily expected. Two vessels went to sea last Saturday. One was the company's ship Olympus with a cargo of over 1,300,000 feet of lumber and the other was the new barkentine Mary Winkelman with ... bound for San Francisco. In the shipyard the construction of a large barkentine has begun which will be six feet long and a foot deeper than the Mary Winkelman, her carrying capacity being estimated at 700,000 feet of lumber and her owner being W. J. Adams owner also of the Seabeck mill.

RELIGIOUS ITEMS

The Wesleyan thanksgiving fund in England has now reached a total of over $1,000,000 and is still increasing.

A bureau has been established in Chicago for the purpose of supplying clergymen with sermons. It is said to be of foreign origin.

The American Bible Society has a press ... cylinder press upon which an entire copy of the bible can be printed every minute.

Since 1878 there have been 13 ministers from other churches applied for and received holy orders in the Episcopal church of the United States.

Spurgeon says that London is getting to be the most heathenish city under the sun and the necessity for evangelical work there is greater than ever.

The first meeting of the committee appointed to prepare a creed for the Congregational churches will be held in Syracuse New York September 27.

The lord mayor of London is a Methodist and some of the established church newspapers don't like to see the dignitaries of the church too ready to accept social recognition from a dissenter.

In the beginning of this century there were but fifty languages into which the bible has made its way in 3300 years. Since 1800 it has created seventy languages to carry its inspiration and has enriched in all nearly 150 with 300,000,000 copies.

The Jews are making efforts for establishing a colony in the district of Gilead and Moab and have secured a grant from the sultan of 1,500,000 acres of land for the purpose for which they are to pay a large amount of money. The colony is to be tributary to the porte.

Bishop Littlejohn who is now in Europe is credited with the remark that the Church of England is further than ever from disestablishment and that it has spent $400,000,000 during the last thirty years in building and repairing cathedrals and churches and $30,000,000 in church schools.

The Baptist churches of Central and Eastern Europe have formed a Union or convention embracing Germany, Switzerland, Denmark, Holland, Russia, Poland and Turkey and reaching into Africa. There are nearly 30,000 Baptists in this vast region, where 50 years ago there were hardly any.

The cause of education has greatly advanced since christian missions were established in Japan. In a population of 33,000,000 there have been organized 18,712 public schools and 2356 private schools with 1,913,000 pupils. There are fifty one normal institutes with 3021 pupils, twenty-one government colleges with 2,0 students. Many of these schools are supplied to a greater or less extent with christian teachers.

Terrible effect of the admission of women to the medical school. A conversation of the future—Hollis Holworthy (meeting Miss Sawbones who has just entered the medical school)—How do you do Miss Sawbones. Miss Sawbones—O pretty well thank you. There is a trifling irritation of the muscular fibres of the anterior surface of the soft palate in the region of the anterior pillar of the fauces and slight contraction of the inferior constrictor and the stylo and palato-pharyngeus muscles and a little enlargement of the mucous follicles of the amygdalae but otherwise ... Hollis was only prevented from rushing for the nearest doctor by Miss Sawbones somewhat scornfully assuring him that she had only a slight sore throat.

45 Years Before the Public

THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS,

FOR THE CURE OF

Hepatitis or Liver Complaint

DYSPEPSIA AND SICK HEADACHE

Symptoms of a Diseased Liver

PAIN in the right side under the edge of the ribs increases on pressure; sometimes the pain is in the left side, the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade and it frequently extends to the top of the shoulder and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive sometimes alternative with lax; the head is troubled with pain accompanied with a dull heavy sensation in the back part. There is generally a considerable loss of memory accompanied with a painful sensation of having left undone something which ought to have been done. A slight dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low and although he is satisfied that exercise would be beneficial to him yet he can scarcely summon up fortitude enough to try it. In fact he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death has shown the LIVER to have been extensively deranged.

AGUE AND FEVER

Dr. C. McLane's Liver Pills in cases of Ague and Fever, when taken with Quinine are productive of the most happy results. No better cathartic can be used preparatory to or after taking Quinine. We would advise all who are afflicted with this disease to give them a fair trial.

For all bilious derangements and as simple purgative they are unequaled.

BEWARE OF IMITATIONS

The genuine are never sugar coated. Every box has a red wax seal on the lid with the impression Dr. McLane's Liver Pills.

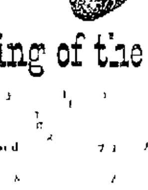

The genuine McLane's Liver Pills bear the signatures of C. McLane and Fleming Bros. on the wrappers.

... the genuine Dr. C. McLane's Liver Pills prepared by Fleming Bros., of Pittsburgh Pa the market being full of imitations of the name McLane, spelled differently but same pronunciation.

ONE PRICE To All! ONE PRICE To All!

FACTS THAT ARE UNDENIABLE.

"TO THE VICTOR BELONGS THE SPOILS"

Such is the cry of UNSCRUPULOUS firms, who, in their endeavor to impose upon the credulity of the public resort to illegitimate means to dispose of their wares. As an illustration, we quote from their advertisements a few of the many devices practiced by them, to wit: "DOLLAR ARTICLES FOR TWENTY FIVE CENTS, ROOM WANTED," and what is still more suggestive, EVASIVE LOTTERY SCHEMES, etc.

Influenced, as we are, by the legitimate principles of a square-dealing house, we deem it incumbent upon us to warn the public against the nefarious practices of the GRABBERS. And although it is neither our wish or desire to dictate to them HOW their business SHOULD be conducted, we do object to their sailing under FALSE COLORS. We would call the attention of the public to the glaring advertisements, in which a firm alleging to sell goods at ONE PRICE (?), marks an article one day at $6 50, and the next day at $2 00, and perhaps to-morrow the article may be worth $3 00, in that ONE PRICE (?) establishment. The persons who purchase the article at $6 50 and note the same article advertised on the following day at $2 00, cannot but feel that they have been the victims of imposition and misplaced confidence.

Such procedure surely has not the tendency to win public appreciation or an increase of trade, but manifestly demonstrates the fact that their business IS UNDOUBTEDLY conducted on the "SPOILS SYSTEM"—YOUR MONEY, WITHOUT VALUATION THEREFOR.

Such inconsistencies are against all force of reason.

WE do NOT propose to give excessive valuation of a dollar invested with us, but a DOLLAR'S VALUE OF A DOLLAR'S INVESTMENT, ONE PRICE and EQUALITY OF TREATMENT IS EXTENDED TO ALL, REGARDLESS OF STATION. These are the doctrines by which our business has been governed since our advent as a Portland business firm, and which have won the well merited support and patronage of the people of the Pacific coast.

The Daily Oregonian.

[illegible] MORNING, AUGUST 22, 1881.

THE NORTHWEST.

Western Oregon.

[illegible]

Since I [illegible] have [illegible] Russian [illegible] bushels per acre.

Washington Territory.

The treasurer's office of Spokan county will [illegible] Cheney.

The District school at Fourth [illegible] September 5th, [illegible] teacher.

Horses are in training for the races at the territorial fair soon to take place at Olympia.

It has cost Spokan county $[illegible] to view and survey its public roads for the quarter ending Aug. 5, 1881.

J. A. Ickelman and Miss [illegible] Nelson will teach the [illegible] public school the coming year, commencing September 4th.

The Sisters of Charity have engaged to keep the paupers of Clarke county for the ensuing year at $4 per week per capita.

Allen Embree of Columbia county has just threshed a field of oats that cleaned up 98 bushels to the acre, machine measure.

The tax levy for Spokan county for the current year is 15 mills, divided as follows: Territorial tax, [illegible] mills, road tax, 4 mills, county tax, 8 mills.

Peel Bros., of the upper Tumwater flour mills, received the contract to supply the Insane asylum with 80 barrels of flour. This is the first time a Washington territory mill secured this contract.

The county school superintendent notifies the directors of the Cheney school district that it will be necessary for them to provide accommodations for seating 150 pupils in the public school there the coming winter.

The report that Nannie Thomas, who gained such unenviable notoriety in the great murder case at Walla Walla, was married a few days ago is unfounded. She is at Colfax, nursing Mrs. Sullivan, who was hurt some time ago by the upsetting of a carriage.

The rate of taxation in Chehalis county for the year 1881 has been established as follows: County tax, 4 mills on the dollar; school tax, 4 mills; territorial tax, 3 mills; road tax, 5 mills; county poll tax, $3 and road poll tax $4 on each male inhabitant, between the age of 21 and 50.

Prescott, the new N. P. R. R. railroad town, is located on the Touchet where the railroad crosses the stream. It has a fine natural location, being above danger from high water, close to an abundance of fire wood, and has excellent water power. The site has lately been surveyed and lots are now in the market.

The taxes for 1881 for Clarke county have been levied as follows: For county purposes, $9930, at the rate of 7 mills, and poll tax of $2. For school purposes, $7000, at the rate of 5 mills. For road purposes, $6000, at the rate of 4 mills, and $4 road poll tax. Three mills for territorial tax was also levied, making the tax rate for 1881 twenty mills, or two per cent.

The following is the census report of Clarke county, as taken by the county assessor, Ira E. Spencer, during three months from the first Monday of July of this year: dwellings 891; families 1000; males 2498; females 2217; married 1595; unmarried 3117; Indians taxable 12; males of foreign birth 1582; females of foreign birth 1353; births within a year 150; married within a year 82; attended school 1147; cannot read 1034; cannot write 1177; blind 3; deaf and dumb 1; male citizens over 21 years of age 1106. Total population of Clarke county 4712.

Intelligencer: Seabeck is buzzing and humming with life. The sawmill is cutting away under the impetus of a high-priced market, and more orders than it can fill. Two vessels are loading, and two more are daily expected. Two vessels went to sea last Saturday. One was the company's ship Olympus, with a cargo of over 1,300,000 feet of lumber, and the other was the new barkentine Mary Winkelman, with 620,000, her first cargo, both vessels being bound for San Francisco. In the shipyard the construction of a large barkentine has begun, which will be six feet longer and a foot deeper than the Mary Winkelman, her carrying capacity being estimated at 700,000 feet of lumber, and her owner being W. J. Adams, owner also of the Seabeck mill.

RELIGIOUS ITEMS.

The Wesleyan thanksgiving fund in England has now reached a total of over $1,500,000, and is still increasing.

A bureau has been established in Chicago for the purpose of supplying clergymen with sermons. It is said to be of foreign origin!

The American Bible Society has procured a steam cylinder press, upon which an entire copy of the bible can be printed every minute.

Since 1858 there have been 103 ministers from other churches applied for and received holy orders in the Episcopal church of the United States.

Spurgeon says that London is getting to be the most heathenish city under the sun, and the necessity for evangelical work there is greater than ever.

The first meeting of the committee appointed to prepare a creed for the Congregational churches will be held in Syracuse, New York, September 27.

The lord mayor of London is a Methodist, and some of the established church newspapers don't like to see the dignitaries of the church too ready to accept social recognition from a dissenter.

In the beginning of this century there were but fifty languages into which the bible has made its way in 330 years. Since 1800 it has created seventy languages to carry its inspiration, and has enriched, in all, nearly 150, with 300,000,000 copies.

The Jews are making efforts for establishing a colony in the district of Gilead and Moab and have secured a grant from the sultan of 1,500,000 acres of land for the purpose, for which they are to pay a large amount of money. The colony is to be tributary to the porte.

Bishop Littlejohn, who is now in Europe, is credited with the remark that "the Church of England is further than ever from disestablishment," and that it has spent $200,000,000 during the last thirty years in building and repairing cathedrals and churches, and $30,000,000 in church schools.

The Baptist churches of Central and Eastern Europe have formed a Union of convention, embracing Germany, Switzerland, Denmark, Holland, Russia, Poland and Turkey, and reaching into Africa. There are nearly 30,000 Baptists in this vast region, where 50 years ago there were hardly any.

The cause of education has greatly advanced since christian missions were established in Japan. In a population of 33,380,500, there have been organized 19,712 public schools and 2356 private schools, with 1,973,000 pupils. There are fifty-one normal institutes, with 3022 pupils; twenty-one government colleges, with 3072 students. Many of these schools are supplied to a greater or less extent with christian teachers.

Terrible effect of the admission of women to the medical school: A conversation of the future—Hollis Holworthy (meeting Æsculapia Sawbones, who has just entered the medical school)—"How do you do, Miss Sawbones?" Miss Sawbones—"O pretty well, thank you. There is a trifling irritation of the muscular fibres of the anterior surface of the soft palate in the region of the anterior pillar of the fauces, a slight contraction of the inferior constrictor and the stylo and palato-pharyngeal muscles, and a little enlargement of the mucous follicles of the amygdalæ, but otherwise—(Poor Hollis was only prevented from rushing for the nearest doctor by Miss Sawbones somewhat scornfully assuring him that she had only a slight sore throat.)

American and English Novels.

[London Athenæum.]

Whether it be, as we have before remarked, that only the better sort of American fiction comes to this country, or from some other cause, we know not, but it is certain that the ordinary novels sent to us by the United States publishers are executed in a better fashion than their equivalents here. It may be that, the total number being less, it is more easy to be original without being eccentric, and so there are fewer abnormal types and less cheap cynicism in the tales that cross the Atlantic than our own lady novelists have accustomed us to look at.

Chicago Wheat Market.

CHICAGO, Aug. 20.—Wheat—unsettled, weak and lower. $1 23 cash, $1 23⅞ September, $1 24⅝ October. Sales $1 21⅝@1 26 October.

NEW YORK MARKETS.

NEW YORK, Aug. 20.—The past week while comparatively quiet and steady as a general thing in [illegible] The wheat market has been [illegible] of stronger cables and demand from shippers here and country buyers, both of whom went wild, when the [illegible] were selling off, and prices advanced correspondingly. To-day, however, the reaction came and prices went off rapidly and a panic seemed probable [illegible] change the outlook at this moment seems to be downward. Legitimate trade is checked, shippers being wholly shut out by advance.

Pork—Firm, $18 25@18 55.
Lard—Fair demand, steady.
Rio Coffee—Very firm at late advance.
Refined Sugars—Moderate demand, shade firmer.
Teas—Slow, supply being derived from auction room.
Borax—Trifle better demand. Cal concentrated 11@12c.
Quicksilver—Dull, 41@42c.
Mustard—Less active and steady.
Hides—Quiet, buyers hold off, and as stock accumulates holders are disposed to make concessions.
Leather—Light demand, prices about steady.
Hops—Quiet, unchanged.
Petroleum—Firmer, but quiet.
Turpentine—Moderately active, firmer.
Resins—Firm for all grades, with fair demand.
Crude Oils—Fair demand, firm; sales 50 bbls southern whale, private, quoted 50@55c.
Foreign Fruits—Not very lively, though there is good trade for season.
Raisins—Scarce and firm; layers $2 45, loose muscatels $2 35; London layers $3; Valencia 9½c.
Prunes—Good demand, 7c for new.
Dried Apples—Held firmly and confidently, although there is not much doing.
Hardware—Good demand for season, and prices maintained.
Nails—Good demand, firmer.

Speculative Business at New York.

NEW YORK, Aug. 20.—At the produce exchange today wheat, corn and oats were all 2 to 3 cents lower and fairly active, transactions still being almost entirely speculative. The magnitude of the speculation of late is strikingly illustrated by the fact that during the past week transactions in wheat alone have involved no less than 13,000,000 bushels, making a total for the fortnight of fully 25,000,000 bushels, at least 90 per cent. of which was in options. Transactions in corn within two weeks aggregated 13,000,000. The export business is hardly a drop in the bucket. Speculation absorbs all attention and alone directs the course of prices. The actual position of our foreign trade in grain just now is reflected in the fact that exports of wheat from New York since January 1st has been only 26,042,000 bushels against 37,525,000 bushels for the same period last year; while of corn, shipments have been 22,413,000 bushels against 30,714,000 bushels during like period in 1880. It is interesting to observe, however, that our foreign exports of flour are materially larger than last year, having exceeded 3,000,000 barrels thus far, against 2,250,000 barrels for the same time in 1880—a fact which, as is well known, has given British millers no little uneasiness.

The Wheat Ring.

CHICAGO, Aug. 20.—No definite information can be gathered as to the status of the Cincinnati clique in the wheat deal. It is positively asserted on one hand that they have nearly closed out their interests, and on the other that they are in deeper than ever, and to-day offered to buy two million bushels. The fact will probably be found to be that a few of them are out, but that their places have been filled by others who will prevent any immediate heavy decline.

Produce Quotations.

SAN FRANCISCO, Aug. 20.—Wheat quiet; weaker tendency. Barley higher; $1 17½@1 20 feed; $1 25@1 35 brewing.

Gold and Stock Reports.

SAN FRANCISCO MARKETS.

SAN FRANCISCO, Aug. 20.

Receipts—Wheat, 60,000 centals, including 38,000 ctls aboard ship, flour, 4500 qr sks; oats, 300 ctls; potatoes, 2250 sks.

Charters—Re-chartered for wheat to Cork: Br bk Thomas Perry, 1192 tons, 55s, prior to arrival. The bark California will load lumber on the Sound for Sydney at 85s.

Wheat—The market is not so active. The demand is checked owing to unfavorable foreign advices. Buyers bid lower from 2½@5c. Choice and extra choice shipping, $1 65@1 67½.

Barley—Supply smaller than the demand; prices consequently steady and favor sellers. Sales of good coast feed at $1 20; poor do, $1 17½. Quote feed at $1 15@1 20; good brewing, $1 25@1 30.

Oats—Prices are not materially changed, yet a slight tendency in sellers' favor is noted, especially for best grades. Quote choice and extra choice feed at $1 55@1 60.

Grain Bags—The market is very quiet. Calcuttas nominal at 8@8½c.

Hides—Market is firm for dry, kip and calf. Prices unchanged.

Butter—Market is steady and quiet. Quote as before.

Eggs—Offerings, though not large, exceed present requirements. Quotations unchanged.

Flour—The market is firm with prices against buyers. Millers quote California choice and extra choice city brands at $5 50@5 75; Oregon bakers' extra, $4 75@5.

NEW YORK MARKETS.

NEW YORK, Aug. 20.

Wheat—Unsettled at $1 30@1 40.
Flour—Strong.
Wool—Active.

CHICAGO MARKETS.

CHICAGO, Aug 20.

Wheat—$1 22½ September, $1 24 October.
Pork—Nominal; $17 35 September.
Lard—$11 42½ September.
Ribs—$9 37½ September.
Short Ribs—$9 65.

BEERBOHM'S ENGLISH REPORTS.

LONDON, Aug. 20.

45 Years Before the Public.

THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS,

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

HODGE, DAVIS & CO., Portland, Sole Agents for Oregon and Washington Ty.

HOSTETTER'S CELEBRATED

STOMACH BITTERS

MALARIA IS AN UNSEEN VAPOROUS poison, spreading disease and death in many localities, for which quinine is no genuine antidote, but for the effects of which Hostetter's Stomach Bitters is not only a thorough remedy, but a reliable preventive. To this fact there is an overwhelming array of testimony, extending over a period of thirty years. All disorders of the liver, stomach and bowels are also conquered by the Bitters.

For sale by all Druggists and Dealers generally.

DR. PAUL M. BRENAN,

The Most Successful Physician on the Pacific Coast in the Treatment of ALL CHRONIC & DIFFICULT DISEASES.

DR. BRENAN WILL GUARANTEE TO CURE any form of Disease of the generative organs or private disease. He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the

FOLLIES OF YOUTH.

Such as SPERMATORRHŒA, or SEMINAL WEAKNESS, or LOSS OF PERFECT VITALITY. Nearly two-thirds of all the Chronic Diseases spring, either directly or indirectly, from some derangement of the sexual system, and yet this subject is neglected by the majority of the Medical Profession.

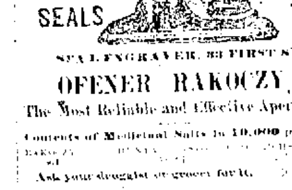

I know that persons who are unfortunate enough to be afflicted by any form of sexual disease have a dread in calling upon the proper physician in time, from a sense of modesty and sometimes from ignorance, and permit those diseases to exist until their constitutions become corrupted, their organizations broken down and the hope of future happiness blighted, until death becomes a welcome messenger to carry them out of their miserable existence.

Everything strictly confidential under all circumstances.

Lost manhood perfectly restored. Catarrh, Bronchitis, Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaint, and all Diseases of the Eye and Ear, Stomach and Bladder, he can cure without fail.

Consultation Free, and a list of printed questions sent to those living at a distance who cannot consult him personally. Enclose postage stamp for list.

ONE PRICE TO ALL!

ONE PRICE TO ALL

FACTS THAT ARE UNDENIABLE.

"TO THE VICTOR BELONGS THE SPOILS"

Such is the cry of UNSCRUPULOUS firms, who, in their endeavor to impose upon the credulity of the public, resort to illegitimate means to dispose of their wares. As an illustration, we quote from their advertisements a few of the many devices practiced by them, to-wit: "DOLLAR ARTICLES FOR TWENTY-FIVE CENTS, ROOM WANTED," and what is still more suggestive, EVASIVE LOTTERY SCHEMES, etc.

Influenced, as we are, by the legitimate principles of a square-dealing house, we deem it incumbent upon us to warn the public against the nefarious practices of the GRABBERS. And although it is neither our wish or desire to dictate to them HOW their business SHOULD be conducted, we do object to their sailing under FALSE COLORS. We would call the attention of the public to the glaring advertisements, in which a firm alleging to sell goods at ONE PRICE (!), marks an article one day at $6 50, and the next day at $2 00, and perhaps to-morrow the article may be worth $3 00, in that ONE PRICE (!) establishment. The persons who purchase the article at $6 50 and note the same article advertised on the following day at $2 00, cannot but feel that they have been the victims of imposition and misplaced confidence.

Such procedure surely has not the tendency to win public appreciation or an increase of trade, but manifestly demonstrates the fact that their business IS UNDOUBTEDLY conducted on the "SPOILS SYSTEM;" YOUR MONEY, WITHOUT VALUATION THEREFOR.

Such inconsistencies are against all force of reason.

WE, do NOT propose to give excessive valuation of a dollar invested with us, but a DOLLAR'S VALUE OF A DOLLAR'S INVESTMENT, ONE PRICE and EQUALITY OF TREATMENT IS EXTENDED TO ALL, REGARDLESS OF STATION. These are the doctrines by which our business has been governed since our advent as a Portland business firm, and which have won the well-merited support and patronage of the people of the Pacific coast.

DR. SPINNEY,

No. 11 Kearny street, S. F.

Treats all Chronic and Special Diseases.

YOUNG MEN

WHO MAY BE SUFFERING FROM THE effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

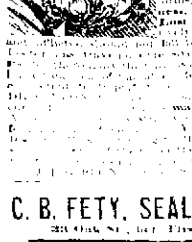

There are many at the age of thirty to sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of Seminal Weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation free. Thorough examination and advice, $5.

Call or address DR. SPINNEY & CO., No. 11 Kearny street, San Francisco.

TO THE UNFORTUNATE.

DR. GIBBON'S DISPENSARY,

623 KEARNY street, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency and Lost Manhood [illegible]

C. B. FETY, SEAL ENGRAVER
